

The Months Song

by Rachel Cole

When we set our clocks to Jewish time,
There are twelve new months to know.
We follow the lunar calendar,
As they did so long ago.

Chorus:

These are the months of Yisrael.
They can be our months too.
We are one people round the world
in our time and what we do.

(Chorus)

When I set my clock to Jewish time,
I am proud to be a Jew.
Reminds me to pray every day of
each month the whole year through.
