Treasure Hunt Preparation

The treasure hunt will help students become familiar with the months of the year and the holidays that each month contains. While we offer a suggested hunt below, it should be adapted to meet the resources of your particular synagogue. For example, if your synagogue has artwork or ritual objects that are prominently displayed, those may prove to be better locations for clues than some of the ideas listed below. Be flexible and creative, and enjoy!

I. Suggested Locations and Actions: We have suggested a couple of potential locations to place clues for each month. In each case, the first location is used in the hunt that we created below. The other locations are options that you may consider using as substitutes if they work better in your synagogue. General suggestions are offered at the end of this list. We have also included actions that you can instruct students to do at the given location. To prepare the actions:

- Print each action on a sign or an index card, and place at the station next to the clue for the next location.
- Instruct team leaders to ask students to complete the action before reading the next clue.
- Provide digital cameras, cell phones, or other video recording devices to document these actions. Images can be posted on a Voicethread to share the excitement with others.

II. General Suggestions to Enhance Your Treasure Hunt:

- Space out clues as much as possible to avoid having the students figure them out. For example, do not place more than one clue at the bima or in the gift shop.
- Integrate your synagogue’s prominent artwork into the treasure hunt. If there are stained-glass windows with images of Judaica, these can become a destination for your students; similarly, Jerusalem motifs, the aron kodesh door, plants, and other displays may be useful substitutes for the examples listed above.
- A synagogue gift shop is a good way to add real holiday Judaica into the treasure hunt if Judaica is not generally displayed in your synagogue.
- Try to stay as true to the “normal” state of your synagogue as possible. For example, if the hanukiyah is not usually lit in the lobby on Hanukkah, do not place a hanukiyah in the lobby for the sake of the treasure hunt.
